

### EDGE® STUMP REMOVAL BUCKET

The EDGE stump removal bucket is the ideal attachment for every landscape professional or everyday compact loader operator in need of a multi-functional tool. From tree stumps to roots, digging ditches or moving and placing rocks, the EDGE stump removal bucket is an ideal versatile attachment.

### OPERATIONAL BASICS

EDGE stump removal buckets feature three durable 23-Series cast steel teeth that dig deep under roots of tree stumps. With the tilt of the quick attach, side teeth on the bucket will cut through stubborn roots and help extract the stump and roots from the ground.

The 1/2" laser-cut funnel-shaped steel bucket can be used to scoop and carry heavy rocks for placement on retaining walls or for moving trees. The 1" thick cutting edge can also be used for digging trenches or ditches as well.

### SPECIFICATIONS

Model	Weight (lbs/kg)	Overall Length (in/mm)	Overall Width (in/mm)	Height (in/mm)	Depth (in/mm)	Cutting Edge Point Width (in/mm)	Bucket Tip Width (in/mm)
SRB57	372/169	62.5/1587.5	46/1168	20/508	57/1448	16.5/419	14.5/368

### FEATURES

- Cost-effective attachment for removal of tree stumps and roots
- Three durable 23-series cast teeth dig deep under stumps
- Side teeth on bucket cut through and help extract stubborn roots
- 1/2" laser-cut funnel shaped bucket carries heavy rocks or trees
- 1" thick cutting edge for trenching ditches
