

### EDGE® PALLET FORK WITH GRAPPLE

The EDGE pallet fork frame with grapple features a unique jaw action which pulls material toward the frame as the jaw closes.

### OPERATIONAL BASICS

The EDGE pallet fork frame utilizes a Class II frame with four options to pin the cylinder to the grapple, maximizing the grapple opening or closing force. The position can be changed in minutes for clamping small pipe or large culverts. This attachment can be used for moving loads of plywood or other building materials. This unit comes complete with hoses and flat face couplers. Individual tines are sold separately.

### SPECIFICATIONS

Model	Weight (lbs/kg)	Grapple Opening (in/mm)	Depth (in/mm)	Capacity (lb/kg)	Overall Width (in/mm)	Tine Type
PFG	416/189	56/1422	48/1219	5000/2268	47/1194	Class II

### FEATURES

- Grab and carry load capacities up to 5,000 lbs (2268 kg)
- Unique jaw action pulls material toward frame as jaw closes
- Four (4) easy to change grapple positions for clamping small or large objects
